

The Don Not Call list has been a blessing in New Jersey. My wife and I used to receive 6-7 calls a night from telemarketers. With our newborn at home, the phone rings and it is inconvenient often to get it, but we know it is someone of importance because we are on the Do Not Call list. If you were to make it less strict the calls will start growing again making it harder to care for our infant. We also fear that we will get unsolicited calls over our cellular phones which, if answered, would cost us money. Thank you for your time.
